

Ergo

Ergo Quickset Adjustable Torque Screwdrivers

Torque range from 0.08 to 9 N.m

Ergo Quickset Adjustable Torque Screwdrivers are calibrated scale tools that can be used for the accurate and consistent application of torque in any manufacturing, engineering or servicing environment. They are EPA compliant, for safe electronic component assembly, and ergonomically designed for enhanced

operator comfort. Unique Slipping Technology ensures that the risk of over or under tightening is eliminated. Their adjustability and wide range of torque make them suitable for a broad range of applications.

QSN 120 FH

T-Bar is not included with the Ergo Quickset Screwdriver Range

Ergo Quickset Adjustable Torque Screwdrivers (ISO and Imperial Scales)

- All models available with 1/4" Female Hex (FH) Drive
- Absolute accuracy and consistency.** Accurate process control is ensured by eliminating under and over tightening due to the unique Slipping Technology
- Calibrated scale.** A visible scale allows the user to adjust the tool to their desired torque setting, enabling a range of different torque settings to be applied
- Ease of use.** Tools can be used with confidence by operators at any skill level, due to unique slipping mechanism
- Easy to set up.** Fast and accurate to set, using the quick and clear to read micrometer style setting scale
- Electronics.** Ideal for safe electronic component assembly as this tool is EPA compliant for use in Electrostatically Sensitive Areas

- Improved production quality.** Accurate torque application reduces the likelihood of warranty and rework
- Increased production efficiency.** Increased operator comfort and productivity, from the smooth reset action of the tool and the ergonomic design of the plastic handgrip
- Long tool life.** High quality, robust construction. Many years of dependable service are provided by the robust design and hard-wearing materials, that include stainless steel and aluminium
- Operational versatility.** These versatile tools are ideal for a wide range of applications, due to their adjustability and wide torque range

Additional features

- Optional Lock On T-Bar for larger models of screwdriver, provides extra leverage (Order Code: P29530)
 - Can be supplied as part of a Service Repair Kit
 - Tool can be kept accurate and up to date with our Calibration service.
- See page 82 for details**

Slipping Mechanism

Incorrect tightening is impossible
