*Peli have improved the design of the Microcases, as detailed below. The improved liner features “bumpers” to protect the contents and the carabiner attachment is a rugged, secure clip ideal for this product. The models in stock in our UK warehouse which have the new design are the 1010 solid black and the 1020 solid black but the whole range will eventually be changed.*

**1010 MicroCase with new liner**

**1020 (left) and 1010 MicroCases with new liners.**

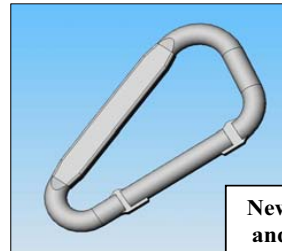

**TITLE: Peli Micro Case™ Design Changes**

**PRODUCTS AFFECTED: Peli's 1010, 1020, 1030, 1040, 1050, 1060 Micro Cases and i1010 Case**

**INTRODUCTION:** The design of the popular Micro Case Series™ has been changed.

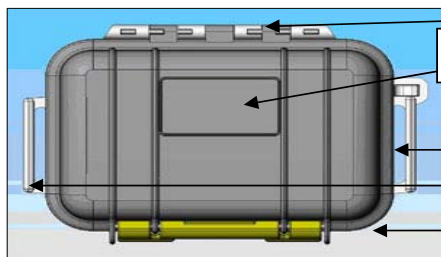

**DETAILS:**

- The latches on the Micro Cases have been changed from solid matching colors to clear polycarbonate.
- Internal case dimension has decreased by length 3 mm and width 3 mm
- The i1010 case exterior will change but the interior will remain the same.
- New part numbers are being created.

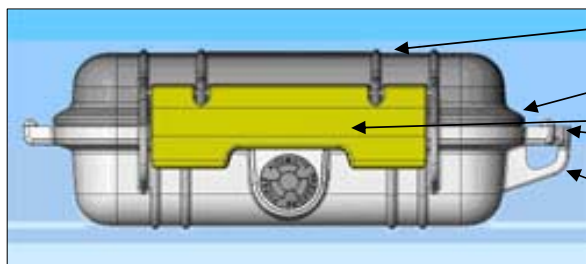

New carabiner acts as hook and packaging attachment
