

89-2926 – Temperature Controlled Soldering Station (ESD Version)

- Rotary temperature control
- Linear 12 LED temperature indication
- Power LED
- Safe, low voltage 24Vac iron operation
- Integral stand
- Mains on/off switch and fuse

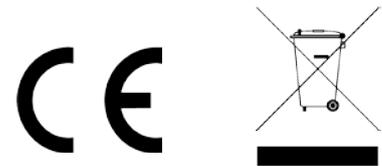

Contents of Station:

Power unit, soldering iron (with 0.8mm pointed tip), stand, sponge and user instructions.

Technical Data

Temp Setting Range:	150 - 420°C
Tolerance:	±5°C
Power Output:	48W
Dimensions:	96x116x170mm
Iron Length:	198mm
Iron Lead Length:	1.1m
Supply Voltage:	220 – 240Vac
