Thank you for your interest in **onsemi** products.

Your technical document begins on the following pages.

# Your Feedback is Important to Us!

Please take a moment to participate in our short survey.

At **onsemi**, we are dedicated to delivering technical content that best meets your needs.

# Help Us Improve - Take the Survey

This survey is intended to collect your feedback, capture any issues you may encounter, and to provide improvements you would like to suggest.

We look forward to your feedback.

onsemi and ONSEMI. and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "onsemi" or its affiliates and/or subsidiaries in the United States and/or other countries. onsemi owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of onsemi product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. onsemi reserves the right to make changes at any time to any products or information herein is provided "as-is" and onsemi makes no warranty, representation or guarantee regarding the accuracy of the information, product features, availability, functionality, or suitability of its products for any particular purpose, nor does onsemi assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using onsemi products, including compliance with all laws, regulations and safety requirements or standards, regardless of any support or applications information provided by onsemi. "Typical" parameters which may be provided in onsemi data sheets and/ or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. onsemi does not convey any license under any of its intellectual property rights nor the rights of others. onsemi products are not designed, intended, or authorized for use as a critical component in life support systems or any FDA Class 3 medical devices or medical devices with a same or similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use onsemi products for any such unintended or unauthorized application,

# Silicon Carbide (SiC) MOSFET – EliteSiC, 22 mohm, 1200 V, M3S, TO-247-4L

# NTH4L022N120M3S

#### **Features**

- Typ.  $R_{DS(on)} = 22 \text{ m}\Omega @ V_{GS} = 18 \text{ V}$
- Ultra Low Gate Charge  $(Q_{G(tot)} = 137 \text{ nC})$
- High Speed Switching with Low Capacitance ( $C_{oss} = 146 \text{ pF}$ )
- 100% Avalanche Tested
- This Device is Halide Free and RoHS Compliant with Exemption 7a, Pb–Free 2LI (on Second Level Interconnection)

#### **Typical Applications**

- Solar Inverters
- Electric Vehicle Charging Stations
- UPS (Uninterruptible Power Supplies)
- Energy Storage Systems
- SMPS (Switch Mode Power Supplies)

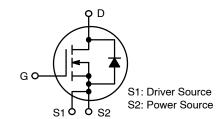

#### MAXIMUM RATINGS (T<sub>J</sub> = 25°C unless otherwise noted)

Stresses exceeding those listed in the Maximum Ratings table may damage the device. If any of these limits are exceeded, device functionality should not be assumed, damage may occur and reliability may be affected.

- The entire application environment impacts the thermal resistance values shown, they are not constants and are only valid for the particular conditions noted.
- 2. Repetitive rating, limited by max junction temperature.
- 3. The maximium current rating is based on typical  $R_{DS(on)}$  performance.
- 4. EAS of 267 mJ is based on starting  $T_J = 25^{\circ}C$ ; L = 1 mH,  $I_{AS} = 23.1$  A,  $V_{DD} = 100$  V,  $V_{GS} = 18$  V.

| V <sub>(BR)DSS</sub> | R <sub>DS(ON)</sub> MAX | I <sub>D</sub> MAX |
